Specifications

Length: 2.4m

Width: 1000mm

Depth: 10mm

Our **AQUAMAX®** range of 1m wide shower panels was developed in 2011 and is currently available in a wide range of decors.

QUICK AND EASY TO FIT

Panels feature a robust tongue and groove joint and can be fixed directly to most existing surface's using adhesive, nails/pins, screws or staples. No grouting required.

WATER AND DAMP PROOF

It will not support bacterial or mould growth. TITAN PVC and Aquamax panels are the ideal solution for bathroom walls and ceilings.

MAINTENANCE FREE

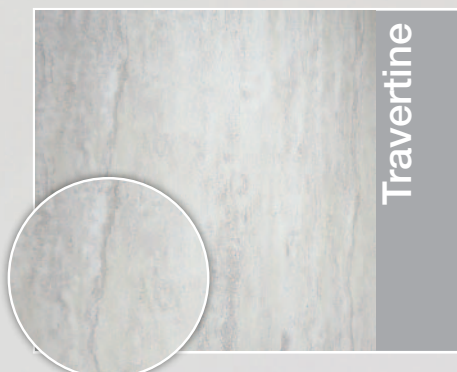

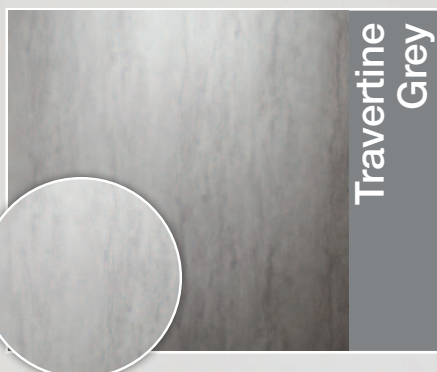

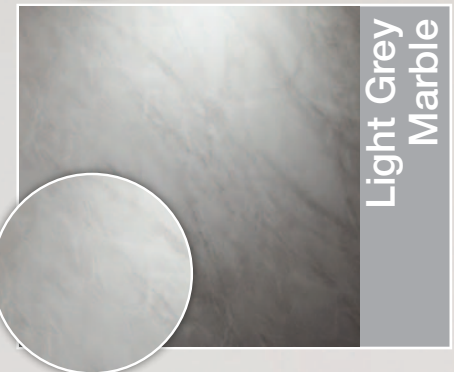

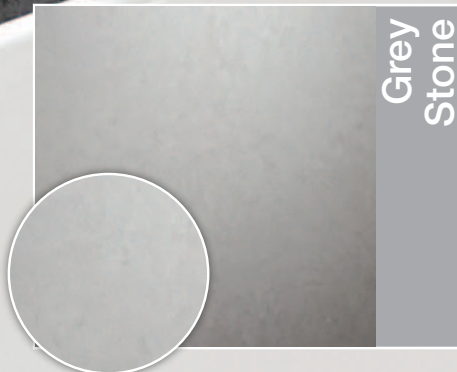

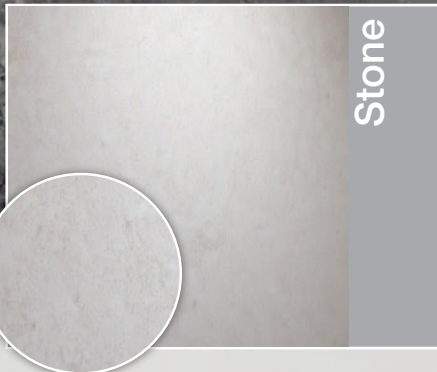

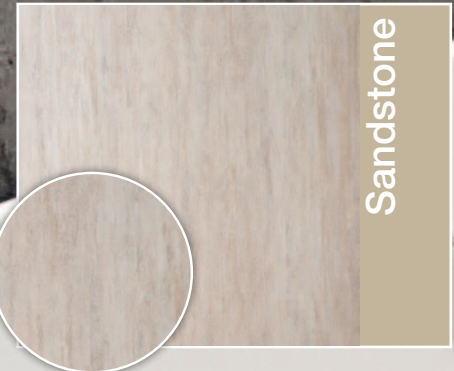

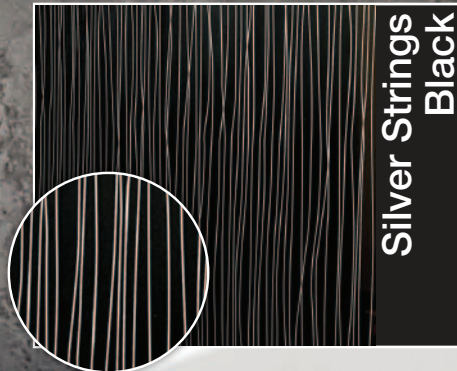

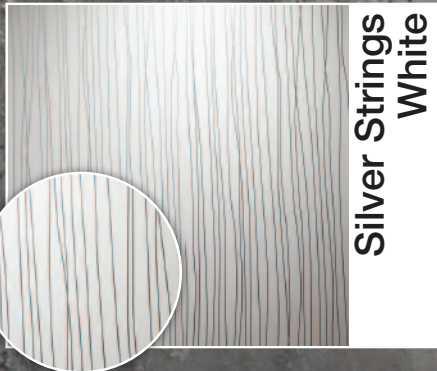

Because of the smooth surface, panels are easily cleaned using simple soap and water. There is no need for specialist cleaning agents.

THERMAL AND SOUND INSULATION

Due to the hollow rigid construction, panels give improved thermal and sound insulation.

TITAN URBAN

Our new 400mm **URBAN** Collection is available in Concrete, Stone and Wood designs. These fabulous matt finished panels offer a strong subtle design alternative for any installation.

The **URBAN** Collection is produced at 5.5kg sqm offering greater strength, rigidity and impact resistance than lighter constructed panels. Perfect for commercial installation where knocks and scrapes are more likely.
